Walk through the trellised gate & enter into a verdant oasis - your own private sanctuary. The front patio is ideal for entertaining & BBQ's. Stroll down a garden path bordered by flowering plants & fruit trees & discover a private studio with a deck and grassy lawn - the perfect place for in-laws, guests or a productive office.

The main house is a cozy two bedroom with a spacious, upgraded kitchen. The stone tiled floor, stainless steel appliances, large windows & room for a dining nook make this the ideal gathering space. From the kitchen, step down into the attached garage with ample space for storage & laundry. There is shelving and laundry hook ups for all your needs. The garage has an exterior side entrance that offers potential for an additional room.

The large living room with ample light and recessed lighting flows into the two adjacent bedrooms. Both bedrooms are carpeted and have roomy closets & large windows. The proximity of all the rooms gives the home an open, breezy sense of space.
